

Study visit of GeoSTM (GEOSTM Twinning Project) in UNI Ente Italiano di Normazione to gaining practical experience and knowledge on standardization activities.

From 13th to 17th March 2023, Director General Davit Tkemaladze and Head of Standards Department Sulkhan Tabaghua from GEOSTM (Georgian National Agency for Standards and Metrology), met UNI's Managers and Directors, under the programme "Strengthening of institutional as well as human capacities of GEOSTM according to the International/EU rules and standards, aiming at gaining practical experiences and knowledge on the basis for the peer assesment described in CEN-CENELEC Guide 22 on the "Organizational structure and processes for the assessment of the membership criteria of CEN and CENELEC".

The meeting was succesful, very interesting and useful, and explored various aspects of technical standardization (National, European and International) with our Georgian colleagues, including translation processes but above all we shared a methodology for managing the activities required by the peer assessment of the CEN Guide 22.

We thank you Davit Tkemaladze (Director Geostm) , Sulkhan Tabaghua (Head of Standards dept. Geostm), Gian Luca Salerio (UNI, Head of International Policy) and Alberto Galeotto (UNI, Head of Standardisation activities) for their contribution experience and comments shared during the week.
